

## Make a Dough-Bot Robot!

### Instructions:

1. Get your ball of playdough.
2. Get a metal plate for building.
3. Create a dough-bot robot that “does something” out of your playdough and some metal bits.

- 4. Share your dough-bot robot with your group helper who will take a picture of your robot.**
- 5. Take apart your robot by replacing the metal pieces to the tray and by rolling your playdough into a ball.**
